

DTA SALES TEAM DEPARTMENT

Your Sales Roadmap

From your first day to your first clients — and on to top performer

PAN INDIA LEVEL

A step-by-step guide for every DTA sales employee · Use it together with the DTA Sales app (My leads, My activity, Demo requests, Monthly business)

Your journey at a glance

You are the face of DTA in your state. This roadmap shows what to do in each stage, what to aim for, and how to know you are ready for the next one. Targets given here are **suggested starting points** — your manager may adjust them for your state.

Stage	Your goal	You are ready for the next stage when...
Stage 1 Week 1 Get ready	Know the app, the products and your pitch. Have your first target list.	You can log in, add a lead, explain each product in 30 seconds, and have 30 target businesses listed.
Stage 2 Weeks 2–4 First leads & demos	Start real conversations every day. Book and give your first demos.	20+ leads added, 10+ real conversations, your first demo requested or done.
Stage 3 Months 2–3 First clients	Turn demos into clients. Build a steady weekly routine.	Your first client marked Won in the app; follow-ups never overdue.
Stage 4 Months 4–6 Build momentum	Grow through referrals and repeat visits. Improve your numbers every month.	Clients are coming from referrals; you know your own conversion rates.
Stage 5 Months 7–12 Grow & lead	Keep clients renewing, sell add-ons, help new teammates.	Renewals on time, add-on sales recorded, you are a go-to person for your state.

The one habit that matters most: every lead, every call and every follow-up goes into the DTA Sales app the same day. Your manager sees your work there — and so do you, in **Monthly business**, when you want to see how much business you have generated each month and each year.

Your tools

In the app	Use it to
My dashboard	See your leads, clients won, business value and follow-ups due.
My leads	Add leads (software / application / website), update stages, set follow-up dates.
My activity	Log calls, visits, meetings and notes.
Demo requests	Ask the DTA team to give your client a demo and see when it is scheduled.
Monthly business	See clients won and business value per month and for the year.

Stage 1 · Week 1 — Get ready

Goal: be confident with the app, the products and your pitch before you meet your first customer.

Day	What to do
Day 1	Get your login ID and password from the DTA admin (only the admin can create them). Install the DTA Sales app and log in. Keep your password private — never share it.
Day 2	Learn the app: add a practice lead, move it through the stages, log a call, set a follow-up date. Open Demo requests and Monthly business to see where things appear.
Day 3	Learn the products. Your manager will share the product list and price list — use only those. For each product write: who needs it, what problem it solves, one key benefit.
Day 4	Watch or attend a demo of each product. Practise your 30-second introduction out loud (see the box below).
Day 5	Build your first target list of 30 businesses in your city: shops, offices and clinics near you that handle many bills, stock or customers. Plan your first week of visits.

Your 30-second introduction:

"Namaste, I'm ___ from DTA in ___. We help businesses like yours ___ (manage billing and accounts faster / get more customers online / take orders through an app). May I ask how you handle this today?"

Week 1 checklist

Done	Item
☐	I can log in and add, edit and move a lead in the app.
☐	I know the product list and who each product is for.
☐	I have seen at least one demo of each product.
☐	I have my 30-second introduction ready.
☐	I have a list of 30 target businesses and a visit plan.

Stage 2 · Weeks 2–4 — First leads and first demos

Goal: talk to real businesses every day and give your first demo.

Suggested starting targets

Week	Leads added	Real conversations	Demos
Week 2	20	10	—
Week 3	20 more (40 total)	15	First demo requested
Week 4	20 more (60 total)	15	2–3 demos held

Your daily routine (about 8 hours)

Time	Activity
9:00 – 9:30	Open My leads → Follow-up due . Handle overdue follow-ups first.
9:30 – 13:00	Field visits and calls. After each one, log it and set the next follow-up date.
13:00 – 14:00	Break.
14:00 – 17:00	More visits / calls; run demos; follow up on proposals.
17:00 – 18:00	Update the app: stages, notes, new leads. Request demos for serious leads. Plan tomorrow.

How a first visit or call should go

1. **Greet and introduce** yourself and DTA (use your 30-second introduction).
2. **Ask, don't pitch:** how do they handle billing / stock / customers today? What takes most time or causes mistakes?
3. **Listen and note** their answers in the lead's Notes.
4. **Offer one next step:** a short demo, or a second call. Don't try to sell everything at once.
5. **Set the follow-up date** before you leave — and log the visit.

Qualify with five questions: Who decides? What do they use today? What is the pain? What is the budget? When do they want it? Only request a demo for leads that have a real problem and a decision-maker.

Stage 3 · Months 2–3 — First clients

Goal: turn demos into clients and build a steady weekly routine.

Getting a demo (it is where deals are won)

1. In the app, open the lead and press **Request a demo** (or go to Demo requests → Request a demo). Add what the client does, their problem, and who will attend.
2. The DTA team schedules it and sends you the date and meeting details — you will see it in **Demo requests**.
3. Confirm the time with your client, and again the day before.

The 25-minute demo structure

Time	What to do
2 min	Agenda: “I’ll show how we solve the problem you told me about.”
3 min	Repeat their problem in their own words.
12 min	Show only the 3 features that solve that problem.
5 min	Questions and objections — answer honestly; if unsure, say you will confirm within 24 hours.
3 min	Agree the next step and a decision date.

Follow-up plan after every demo

When	What to do
Same day	WhatsApp summary: what was discussed, the offer and the agreed next step. Move the lead to Demo or Negotiation in the app.
Day 3	Send one useful thing: a sample, short video or a similar client’s result.
Day 7	Call: any questions? Confirm the decision date.
Day 14	Share the written offer; ask what is holding the decision.
Day 30	Try a new angle. If still no, set the next follow-up 45–60 days away and focus on live leads.

When you win

1. Mark the lead **Won** in the app and enter the **final deal value** — this adds it to your **Monthly business**.
2. Pass the details to the DTA team for setup; follow your manager’s payment process.
3. Check in on **day 7** (is everything working?) and **day 30** (results, feedback), and ask for a referral.

If you lose a deal, mark it **Lost** and write the reason in Notes (price, timing, competitor, no need). Looking at your lost reasons each month is the fastest way to improve.

Stages 4 & 5 · Months 4–12 — Momentum and growth

Months 4–6: build momentum

- **Ask for referrals** after every good result: “Which two businesses you know have the same problem?” Referrals close faster than cold visits.
- **Revisit your best segments.** Look at which kinds of businesses became clients, and visit more like them.
- **Review yourself once a month** using My dashboard and Monthly business: leads → conversations → demos → clients. Which step is weakest? Work on that one thing next month.
- **Share good results** (with the client’s permission) with new prospects — a real example convinces better than any brochure.

Months 7–12: grow and lead

- **Keep clients renewing.** Remind them 2–3 weeks before the renewal date, fix any problem first, and set the follow-up date in the app.
- **Offer add-ons.** A software client may need a website or app. Ask after they have used the product for 30–60 days.
- **Help new teammates.** Share your scripts and what worked. A strong team makes every state stronger.
- **Look at your year.** In Monthly business, switch to **Financial year (Apr–Mar)** to see your total business and best month, then set your goals for the next year with your manager.

Habits of top performers

Habit	What it looks like
Consistent	Visits and calls every working day, not only when it is easy.
Organised	Every lead has a next follow-up date; nothing overdue.
Curious	Asks about the client’s business before pitching.
Honest	Promises only what DTA delivers, on dates DTA can keep.
Caring	Checks on clients after the sale, which brings renewals and referrals.

Remember: you don’t need to be perfect — you need to be consistent. Small steps every day, honest conversations and good follow-up will bring you clients, and clients will bring you more clients.

Your toolkit

Answers to common objections

Listen fully, agree with the worry, answer with facts, then ask for the next step. Never argue.

They say	You can say
"It is too expensive."	"I understand. Let's compare the monthly cost with the time and mistakes you have today." Show the saving first; offer only the price options your manager has approved.
"We already use Excel / another software."	"Good — what is the one thing it doesn't do well? Let me show how we handle that."
"My staff won't learn it."	"We train your team and support them after the start. We'll begin with the daily tasks only."
"I need to think / ask my partner."	"Of course. What would you like to be clear on? Can we speak again on ___ with your partner?"
"Send details on WhatsApp."	Send a short, specific message and fix a call time: "I'll call you Thursday at 5."
"Is my data safe?"	Explain only what your manager has confirmed. If unsure: "Let me confirm and get back to you today."

Do

- Log every lead and activity the same day.
- Ask questions before pitching.
- Be on time for demos and calls.
- Follow up on the dates you set.
- Be honest about features and timelines.
- Ask happy clients for referrals.

Don't

- Don't promise features or dates you can't confirm.
- Don't quote prices or discounts outside the approved list.
- Don't share your login with anyone.
- Don't criticise competitors — show your value.
- Don't leave a lead without a next follow-up date.
- Don't forget a client after the sale.
