

DTA SALES TEAM DEPARTMENT

Online Sales Plan

How to collect leads online, and how to handle and close clients — all online

PAN INDIA LEVEL

For every DTA sales employee · Field visits only when a client calls and asks for one · Use with the DTA Sales app and "How to Sell DTA"

1. How online selling works at DTA

All selling is done **online**: phone, WhatsApp, email and video calls. You visit a client only when **the client calls us and asks for a visit**. This lets one person serve customers across a whole state — and lets DTA reach customers anywhere in India.

Five rules of online selling

1. **Speed wins.** The first person to reply properly usually gets the customer. Reply to every enquiry within 15 minutes in working hours.
2. **Every enquiry goes into the DTA Sales app** the same day, with where it came from (write the source in the lead's Notes, e.g. "Source: Google / WhatsApp / LinkedIn / Referral").
3. **Trust must be built online.** Customers can't see your shop — so show proof: real examples, a clear profile, a professional message and a live demo.
4. **Keep it personal.** Use their name, language and business details. No copy-paste blasts.
5. **Follow up.** Most online enquiries don't buy on the first chat. Follow up on a schedule.

When does a visit happen?

Only when a client calls us and asks for it. If a client wants a visit: log it in the app, tell your manager, and agree the date, place and who will attend. Do not offer visits yourself to cold leads — offer an online demo.

Which enquiries are mine?

Handle enquiries from **your state**. If an enquiry comes from another state, pass it to that state's employee (your manager will tell you the routing rule) — and reply to the customer meanwhile so they don't wait. Speak in the customer's language wherever you can.

2. Where to find leads online

Start with the **free** channels. Add paid channels only after your manager approves a budget.

Channel	What to do	Cost
Google Business Profile & Maps	DTA's profile with phone, WhatsApp link, photos and reviews, so people searching "billing software / website company near me" can find and call us. Ask happy clients for reviews.	Free
WhatsApp Business	Business profile, product catalogue, quick replies, a click-to-chat link and QR code on every post and website. Message people who enquired or agreed to hear from us.	Free
LinkedIn	Search owners and managers of businesses in your state; send a short personal connection note; share useful posts (tips, demos). Good for software and websites.	Free
Facebook & Instagram	Short posts and reels: "3 mistakes in manual billing", demo clips, client results. Join local business and trader groups and help first — answer questions, don't spam.	Free
YouTube	2–3 minute demo and "how to" videos. Customers search "how to manage stock / GST billing". Add your WhatsApp link in the description.	Free
Business directories	Listings on Justdial, IndiaMART, Sulekha and similar sites bring buyers who are already looking. Reply fast to enquiries from there.	Free / paid listing
DTA website & landing page	A clear page per product with a contact form and WhatsApp button. Every form entry should reach the sales team instantly.	Free (existing)
Referrals	Ask every happy client for 2 names. Also work with CAs, consultants and IT shops who meet many businesses.	Free
Webinars	A 30-minute online session ("Run your business without paper") on Google Meet or Zoom. Collect names at sign-up; follow up with attendees.	Free
Paid ads needs manager approval	Google Search ads and Facebook/Instagram lead ads aimed at your state. Test with a small budget and track which ads bring real clients.	Budget set by management

Stay within the rules. Contact only people who enquired, agreed to be contacted, or are publicly listed for business — and respect Do-Not-Disturb and WhatsApp's policies. Never buy random phone lists or send mass messages to strangers. Keep customer details safe and use them only for DTA business. Ask your manager if unsure.

3. Your daily lead-generation routine

A suggested day (about 8 hours)

Time	Activity
9:30 – 10:00	Check all channels for new enquiries (WhatsApp, calls, website forms, Google, directories). Reply to each. Open the app: My leads → Follow-up due .
10:00 – 11:30	Lead creation: post or reply on social groups; send 10–15 personal LinkedIn requests or opt-in messages; update a listing.
11:30 – 13:30	Conversations: calls and WhatsApp with new and warm leads; qualify; book demos.
13:30 – 14:30	Break.
14:30 – 17:00	Online demos and proposals; follow-ups.
17:00 – 18:00	Update the app: stages, notes, sources, follow-up dates; request demos; plan tomorrow.

Content ideas that bring enquiries

Type	Examples (use your product details)
Problem posts	"Still writing bills by hand? 3 mistakes that cost shops money." · "How much time does your month-end take?"
Quick demo clips	30–60 second screen recordings: "Make a bill in 20 seconds", "See pending payments in one screen".
Client stories	"How a [type] business in [state] saved ___ hours a week." only with real, approved results
Tips and checklists	"5 signs your business has outgrown Excel." · "Website checklist for small businesses."
Questions	"What is your biggest headache in running your shop? Comment and I'll share a tip."

Outreach messages (short and personal)

LinkedIn connection: "Hello ___ ji, I work with DTA and help businesses in [state] manage billing and accounts more easily. I'd be glad to connect and share useful tips."

After they accept: "Thanks for connecting. Quick question — how are you handling [billing / online orders] in your business today? If it's a pain point, I'm happy to share what's worked for others."

Group comment: "Good question. One thing that helps is ___. If you'd like, I can show a 2-minute example — just message me."

4. When an enquiry arrives

The 15-minute rule: reply to every new enquiry within 15 minutes in working hours. Outside working hours, an instant auto-reply, then a real reply first thing in the morning.

The 5 steps

Step	What to do
1 • Acknowledge	Reply on the same channel they used, with their name. Say who you are and that you'll help.
2 • Call	Call within the hour (if they gave a number). A voice builds trust faster than text. If they don't answer, send a WhatsApp: "I tried calling — what time suits you?"
3 • Qualify	Ask 4–6 questions: what business, what problem, what they use today, who decides, how soon, rough budget.
4 • Book the demo	Fix a date and time for an online demo with the decision-maker. Send the meeting link and a calendar reminder.
5 • Record	Add to the DTA Sales app with state, city, product type, source in Notes, expected value and the next follow-up date.

Scripts

WhatsApp reply (first message): "Namaste ___ ji, thank you for contacting DTA. I'm ___. I saw you're looking for ___. May I call you in the next 10 minutes to understand what you need?"

Inbound call: "Namaste, DTA, this is ___. How can I help you?" ... [listen] ... "Tell me a little about your business, so I suggest the right thing." ... [questions] ... "Let me show you how this works on a short video call — are you free today at 4 or tomorrow at 11?"

After-hours auto-reply: "Thank you for contacting DTA! Our team will reply first thing in the morning (9:30 am – 6 pm, Mon–Sat). To help us serve you faster, please tell us your business type and what you need."

Missed call: "Hello ___ ji, sorry we missed your call. This is ___ from DTA. When is a good time to speak today?"

Tip: always find out the **business type and state** (so the right employee and product are used), the **problem**, what they use **now**, **who decides**, and **when** they want to start.

5. Dealing with clients online

Run a great online demo (25 minutes)

Before	Do this
Send the link	Google Meet / Zoom link on WhatsApp + reminder 1 hour before. Check they know how to join.
Prepare	Open the demo account, close other tabs, use a quiet room, camera on, good light, headset if possible. Have their problems written in front of you.
Request DTA's help	If the DTA team should join, press Request a demo in the app with the date and the client's needs.

During	Do this
2 min	Welcome; agenda: "I'll show how we solve what you told me."
3 min	Repeat their problem in their words.
12 min	Share your screen; show only the 3 things that solve it. Let them "drive" one task.
5 min	Questions and doubts, answered honestly.
3 min	Agree the next step and decision date.

Building trust when they can't meet you

- **Show you are real:** introduce DTA, your name and state, company profile, website and Google listing.
- **Show proof:** real examples, screenshots and short testimonials **approved by manager**; offer to connect them with a similar client if the client agrees.
- **Be clear in writing:** what is included, price, start date, support — in a short PDF or message.
- **Be reliable:** join on time, send what you promised the same day.

Online objections

They say	You can say
"How can I trust someone online?"	"Fair question. You can check our website and Google listing, see a live demo with your own data, and speak to a client who uses it. We also start with a clear written agreement."
"I want to meet in person."	"Of course. Let me inform my manager and arrange it. Meanwhile, shall we do a short demo on video so you can see it first?" (Log the request in the app and tell your manager.)
"Send me the quotation / details."	Send a short, specific offer, then book a 10-minute call to walk through it: "I'll call you Thursday at 5."
"I'll check with my partner."	"Let's do a 15-minute video call with your partner — I'll answer their questions directly."

6. Closing, follow-up and tracking

Closing online

1. After the demo, send a summary the same day: problem → solution → price/plan → start date.
2. Ask: "Shall we start on [date]?" or offer a choice between approved plans.
3. Follow your manager's **payment and agreement process** (online payment link / bank transfer; written confirmation). Never share personal bank details unless DTA's process says so.
4. In the app, mark the lead **Won** with the final deal value; hand over to the DTA team for setup.
5. Call after 7 days ("Is everything working?") and 30 days ("What has improved?"). Ask for a Google review and a referral.

Follow-up schedule for online leads

When	Action
Within 15 min	First reply to the enquiry.
Same day	Call + WhatsApp summary; demo booked.
Day 1	Reminder for the demo; share a short intro video.
Demo day	Demo; summary within 2 hours.
Day 3	Share a similar client's result or a helpful tip.
Day 7	Call for questions; confirm the decision date.
Day 14	Ask for the decision or set a dated later follow-up.
No-show to a demo	Same day: "Sorry we missed each other — shall we reschedule for ___?"

What to record in the app

- Every enquiry as a lead (state, city, product type, phone) and the **source** in Notes.
- Each call and message under the lead (**Log**), and the next follow-up date.
- Demo requests; stage changes; **Won** with deal value or **Lost** with the reason.

Weekly numbers to check

New enquiries by source (which channel to focus on) · replies within 15 minutes · demos booked and held · clients won and business value (see **Monthly business** in the app).

Example only (illustrative): for 4 clients a month, if about 1 in 4 demos is won, you need about 16 demos. Replace the example rate with your real one after a few weeks of data.

Pocket checklist — online selling

Every day

- ☐ Check all channels; reply within 15 minutes
- ☐ Handle follow-ups due first
- ☐ 10–15 personal outreach messages
- ☐ One useful post or group reply
- ☐ Calls and demos
- ☐ Update the app (source, notes, follow-up date)

Every enquiry

1. Reply with their name
2. Call within the hour
3. Ask 4–6 questions
4. Book an online demo
5. Record it in the app

Always

- Be fast, polite and personal
- Show a live demo with their problem
- Send a clear summary in writing
- Follow up on the dates you set
- Respect privacy and contact rules

Never

- Spam strangers or buy random lists
- Promise what DTA hasn't confirmed
- Offer visits to cold leads
- Quote prices outside the approved list
- Share your login or customer data

Your manager provides: product and price list, approved offers, real client examples and approvals for paid ads, plus the rule for passing enquiries between states.
